¹ The student enrollment figures provided by the United States Department of Education are for the 2013 school year, the most recent available. The enrollment figures include full-time and part-time students.

² The figures provided for 2014 were reported using the revised UCR definition of rape. The definition is “penetration, no matter how slight of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.” The definition includes offenses of rape, sodomy, and sexual assault with an object.

NOTE: Caution should be exercised in making any intercampus comparisons or ranking schools because university/college crime statistics were affected by a variety of factors. They included demographic characteristics of the surrounding community, ratio of male to female students, number of on-campus residents, accessibility of the campus to outside visitors, size of enrollment, etc.
